Summary

Highly skilled Full Stack Developer with expertise in building dynamic and responsive web applications using modern frameworks like React.js and Next.js. Proficient in backend development with PostgreSQL, ensuring robust database management and seamless integration. Strong knowledge of JavaScript, HTML, CSS, and version control.

EXPERIENCE

Full Stack Web Developer

February 2025 - May 2025

VKAPS IT Solutions pvt & LTD

- Worked on a live web application: mythrivebuddy.com, contributing key features using Next.js.
- Developed the Referral System allowing users to refer friends and earn rewards.
- Designed and integrated FAQs, and Leaderboard for enhanced user engagement.
- Created Public and Business Profiles with editable fields and visibility options.

Frontend Developer Internship

Nainwas Computer Institute

October 2024 - November 2024

- Designed and built responsive web pages for real-world projects.
- Created reusable components using React.js for dynamic UI rendering.

PROJECT

Jeopardy-Quize-App

February 2025 - March 2025

jeopardy-8f1w.vercel.app

- Designed and developed Jeopardy-style quiz gameplay to earn points. Enabled users to redeem points for digital products delivered via email.
- Integrated membership plans (1 Month, 1 Year, Lifetime) for extra discounts.
- Added a blog section to keep users updated with latest content. Created a contact form for user support and feedback.
- Developed a secure admin panel to manage quizzes, users, blogs, and orders.

Food Delivery App

November 2024 - January 2025

- Implemented cart features – users can add or remove items easily.
- Created a dynamic food menu with name, image, price, and category with Stripe Payment.
- Designed and implemented an Admin Panel for full control over food management.
- Add new food items, delete existing food items, view and track customer orders and their status..

AI-agent APP

April 2025 - May 2025

- Built an AI Agent web app using Next.js and Gemini API for smart chat interactions.
- Integrated Gemini key for generating real-time AI responses.
- Designed a responsive UI for mobile and desktop users.
- Deployed on Vercel with secure environment variable setup.
